

## Back to the future Review

What was good, and why.

### Set and Props

There were light strips on the walls and they lighted up sometimes eg. special times, songs, when the DeLorean was moving.

The props were made well - the clock tower, the tree, the benches all looked realistic.

### Costume

The costumes were very faithful to the original film which I liked and they all were distinct and unique to suit the characters.

### Lighting

The lighting was nice. Everyone had their own spotlights when they were singing and dancing. The lights on the DeLorean turned on and off and made it look cool.

### Sound and Music

It was very loud - I put my headphones in but it was still loud. I did like the music - my favourite song was 'It works'.

### Acting

The acting was funny and convincing. I didn't laugh but I did chuckle at

some points. For example the quote 'your kids are gonna love it'. The Doc was my favourite character because he was really funny - both what he said and how he said it.

### My favourite moments

1. I liked the memes (jokes) because they were funny.
2. I liked the DeLorean - it was very cool looking. The lights were pretty on it. I liked how they made it look like the car was moving.
3. I liked the special effects - they were cool, eg. the light strips and the way they projected the speed of the car on to the screen.

What was not so good, and why?

The loudness was not so good because it hurt my ears. Everything else about the show was good.
